

September 17, 2001

Ms. Magalie Roman Salas, Secretary
Federal Communications Commission
The Portals, TW-A325
445 12th Street, S.W.
Washington, D.C. 20554

Re: Ex Parte Notification:

WT Docket No. 00-32
CS Docket No. 97-80
WT Docket No. 00-258
WT Docket No. 94-102

Dear Ms. Salas:

This letter is being filed to notify you that on September 14, 2001, Rich Barth, Steve Sharkey, Christine Crafton, and Marian Barell, all of Motorola, Inc., met with Commissioner Copps and Paul Margie, Spectrum and International Legal Advisor to Commissioner Copps. The purpose of the meeting was to familiarize the Commissioner with some of Motorola's top priorities.

During the meeting, we expressed our support for positions that Motorola has filed previously with the Commission in the above proceedings. Specifically, we noted the wide support by the public safety community for allocating the 4940-4990 MHz band for use in providing broadband services to public safety and urged that the Commission move quickly to adopt this allocation. We expressed our support for eliminating a requirement that precludes the lease or sale of "navigation devices" (cable set-top boxes, et. al.) by the operator that have integrated security features after January 1, 2005. Eliminating this requirement will help maintain a competitive market in which consumers have a wider variety of choices. We also encouraged the Commission to play an active role in identifying a sufficient amount of spectrum for advanced mobile services, including working with other government agencies to identify options for relocating existing services. Finally, we expressed our support for the Commission to provide relief on E911 requirements through the waiver process based on the individual filings that have been made by wireless carriers.

In accordance with the Commission's rules, one electronic copy of this letter is being submitted via the Commission's Electronic Comment Filing System for inclusion in the record in the above captioned proceedings. Please contact Steve Sharkey at (202) 371-6953 regarding any questions concerning this matter.

Sincerely,

/s/

Richard C. Barth, Ph.D.
Vice President and Director
Telecommunications Strategy and Regulations

Cc: Commissioner Copps
Paul Margie
